

REMARKS/ARGUMENTS

Claims 1-17 stand allowed in the Notice of Allowance mailed December 10, 2008. A review of corresponding foreign applications has indicated several references which may be considered pertinent to the presently claimed invention and they are made of record in the attached Information Disclosure Statement. Additionally, Applicant makes of record the Bletsis reference which is discussed in the specification as originally filed on page 3.

Applicant has also made several minor corrections in the punctuation of claim 1 and added more limited independent claim 18 which is a combination of claim 1 and the angle range of claim 11 and discussed on page 11, line 21 of the specification as originally filed. A dependent claim 19 is also offered further limiting claim 18 to the range of claim 12. Consideration of the disclosed prior art, the entry of the new claims and addition of typographical changes is requested.

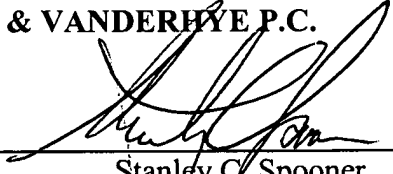

Having responded to all issues in the Notice of Allowance, claims 1-19 are the only claims remaining in this application and are still believed to be allowable. Should the Examiner have any question regarding these claims, he is respectfully requested to contact Applicant's undersigned representative.
